A SIMPLE CHANGE. MADE A WORLD OF DIFFERENCE.

The health resort does not always bring back health, but the health resort and proper food make a pretty sure combination. Mrs. E. Kennett, Springfield, Mo., writes: "I

was pronounced a consumptive and sent to Asheville, N. C., for my health. I just could not eat without a cup of coffee, and my stomach was in such a condition that I could not drink it. I was almost in despair, when the landlady of my boarding house said that if I would drink Postum Food Coffee I would find it would take the place of coffee and agree with me. She made it so delicious that I enjoyed every meal I ate, and gained in flesh and strength so rapidly that I was able to come back home and live.

"I give Postum more credit for my return to health than climate or anything else. Clements, who, as stated in yesterday's Star, had four fingers of his left hand and two of his right hand burned off by contact with an uninsulated electric wire, which he grasped while climbing a Wyoming the temperatures equaled or were slightly lower than any previous record for the time of the year. Frosts, both light and heavy, were also reported from the upper Mississippi valley, the upper lake the upper Mississippi valley, the upper lake later in the day. tree in the stable yards of the Emrich Beef injured member amputated at the knuckles

At the time young Clements was so sesiously injured he was trying to untangle his kite, which had lodged in the branches of the tree. He had nearly accomplished his purpose when he grasped the deadly through the flesh and bone as a knife would, and he was precipitated to the ower lake region.

Temperatures will fall generally, and the fall to the ground the lad's face came into contact with the wire, leaving an ugly When picked up he was uncon scious and apparently dead. He was quickly removed to a nearby house, where a physician was summoned, and he was revived It was then that the extent of the boys' in juries were discovered, and he was imme diately taken to the Georgetown University Hospital, where his hands were dressed and later his fingers amputated.

The physicians at the hospital say they cannot understand why the shock did no kill the lad 'nasmuch as it was strong enough to cut off his fingers. They stated this morning that he is suffering considerable pain, but otherwise is in good shape. Bitten by a Dog.

Emma Newheiser, a child of thirteen years, whose home is at 3037 K street northwest, was quite seriously bitten in the leg by a dog which is supposed to have been suffering from the rabies. The child was standing at the corner of Canal and Jefferson streets about 6 o'clock this morning, and from what can be learned the canine crept up from behind and sank his teeth in her leg. The girl was hurriedly conveyed to the Georgetown University Hospital for treatment, while Sergeant Keefe and Privates Walsh and Furr gave chase to the animal. After running about two squares the guardians of the peace cornered and killed the dog in the yard of 3106 M street. Poundmaster Einstein was notified and he had the body of the animal removed to the health department for examination. Tried to Persuade Boys Away.

While patrolling his beat early this morn-

ing Policeman M. E. Furr found a colored man, a colored boy and a white lad loitering about the corner of 37th street and Prospect avenue. He promptly arrested the trio and found that the colored man was Bruce Bates and was bound for White's Ferry, Md., on which trip he was trying to persuade the boys to accompany him.

The colored boy said his name was Thomas Johnson, and gave his age as ten years, while the white lad proved to be Joseph Smith, eleven years, both fugitives from their parents. The boys were sent to the house of detention and the colored man was locked up on the charge of vagrancy. Brief Mention.

Georgetown patrons of the schools will petition the Georgetown Citizens' Association at its first fall meeting to exert its influence to secure larger playgrounds about the various schools in that section. The grounds connected with the Addison and Curtis buildings, both fronting on electric car lines, are particularly contracted in area, it is said, and about one-half of the ran, part original lots 4 and 5, square 923; thousand or more pupils, principally small ones, who attend these schools, are forced to use the dangerous thoroughfares as playground during recess.

A dispatch from Baltimore, Md., yester-

The new lodge will be known as Senate Peace Fixed Up Between the Goulds Lodge, No. 4, and it will meet the first and and Pennsylvania.

day says: It was rumored in local financial institution were the following officers of the grand lodge: Dr. J. Ward Willson of circles today that the Goulds and the Pennsylvania interests had arrived at an agree-Baltimore, grand foreman; A. F. Golbert of Baltimore, grand recorder; S. Eccles, jr., of Baltimore, grand receiver; J. Severe of ment, and that the hatchet would be buried. The arrangement as reported is that the Gould proposed trunk line out of western Grape of Baltimore, chairman of the finance committee of the grand lodge; Lewis Bethke of Baltimore, member of the finance committee, and Louis A. Becker of Baltimore, member of Baltimore, member of the finance committee, and Louis A. Becker of Baltimore, member of the finance committee works are sent to the sent finance. Maryland is not to be interferred with, but that they must not build their line eastwardly through the state of Pennsylvania, nor enter the community established for the maintenance of stable rates. The concessions to be given the Goulds include, it is stated, a traffic agreement to use the Baltimore and Ohio between Cumberland and Cherry Run, thus rendering unnecessary the proposed paralleling of that line to con-nect the West Virginia Central with the Western Maryland.

It is even said that the traffic arrangement will be ultimately extended so as to give the Western Maryland the use of the Baltimore and Ohio between Pittsburg and

Cherry Run, and that the present line between these places will be shortened and double tracked to accommodate the in-creased business. This would stop another projected paralleling of the Baltimore and Ohio. The Reading is also drawn into this scheme of harmony, and the report says that this system will grant the Goulds traffic rights to Philadelphia and New York. Petition Filed.

All advances to the members are secured by first morrgage on desirably located real estate inside the Diritet of Colombia. Our advances are \$185 on each share at a charge of \$1 per month on each advance. We charge \$5 for \$1.25 \$8 for \$1.35, \$10 for \$1.850, \$20 for \$3,700, and so on. We make 'uilding advances and charge only as the money is used and not on the whole advance until it is all taken, thus saving considerable during the construction. In addition to the dues on the advances we require such payments on the principal as is convenient for the member to pay in reduction of the debt. The above is in relation to advances. Now as to depositing money in the association. We are paying a dividend every month of ver \$10,000 to members as profits on their subscriptions. We pay 4 per centum per annum, payable every three months. We take any amount from \$1 to \$5,000 from any one member. Although we can require a notice for money to be withdrawn, ordinarily we pay on demand. We are the largest and most flexible building association in the District.
